VIA CERTIFIED MAIL RRR

**Re: Request for Information Pursuant to Section 104(e) of CERCLA
For IWI Inc. Site, Summit, Illinois
Our Client: Midwest Industries/MTD Products Inc
(Collectively, "MTD")**

Dear Ms. Bensing:

Please be advised that this firm serves as counsel to MTD, and the undersigned is environmental counsel for the company. MTD received your Section 104(e) Request via certified mail on March 9, 2005, and we are providing our client's response within the 30 day period. Please direct all future communications intended for MTD to me.

As the outset, MTD objects to the EPA's lengthy, irrelevant, and improper introductory pages of instructions and definitions as being beyond the scope of Federal Rules of Civil Procedure, and other applicable law. Compliance with EPA's introductory "ground rules" for each and every Request, would be overly expensive, oppressive, and unduly burdensome.

MTD further objects to EPA's instructions and definitions on the grounds that they are ambiguous, compound, overly broad, and to the extent that they are intended to include work product, documents made in anticipation of litigation, attorney-client privilege matters, materials of non-testifying consultants, and to the extent that they call for identification of information and/or

documents which are irrelevant, immaterial, and not reasonably calculated to lead to the discovery of admissible evidence, and outside the scope of discovery.

MTD also objects to the EPA's Requests to the extent that they impose obligations beyond the applicable statutory or case law, Rules of Civil Procedure, and other applicable rules.

Without waiving any of the foregoing objections, MTD's responses are set forth below. For ease of reference, the responses correspond to the numbers provided in Attachment B of your March 7, 2005 letter:

1. **Response:** These responses were prepared by Ed Waddles, Corporate Environmental Manager of MTD, and Peter Bellamy, Environmental Compliance/Willard, with the assistance of counsel.
2. **Response:** MTD has examined its records dating back to 1999. In this review, no documents were located which reference the IWI Site in Summit, Illinois.
3. **Response:** Not applicable.
4. **Response:** OHD004196689.
5. **Response:** Unknown at this time.
6. **Response:** Ed Waddles, Peter Bellamy, Chemical Solvents Inc., Chemical Analytics Inc., Clean Harbors Env. Services Inc., Safety Kleen Systems, EnviroClean Services, Evergreen Waste Management.
- 7(a-f). **Response:** As noted above, MTD has reviewed its documentation for waste disposal during the period 1999-2002 from the Willard, Ohio plant. These documents consist of Uniform Hazardous Waste Manifests, Non-Hazardous Waste Manifests, Bills of Lading, and related documents. The documents indicate that MTD did not generate any waste which would have been shipped to the IWI Site in Summit, Illinois. The ultimate treatment, storage, and disposal facility ("TSDF") is listed on each document, and none of them are located in Summit, Illinois. The waste materials were generated as a part of MTD manufacturing processes, were generally in a liquid state, and are described more particularly on each manifest or similar document. Copies of all manifests and documents for the years 1999-2002 are attached, sorted by year.
8. **Response:** This is proprietary and confidential information and, therefore, MTD objects to this request and respectfully declines to answer same.

Mrs. Mila V. Bensing
April 8, 2005
Page 3

9(a-d). **Response:** This is proprietary and confidential information and, therefore, MTD objects to this request and respectfully declines to answer same. MTD Products Inc has been in continuous operation, with its principal place of business in the Cleveland, Ohio area, since 1932.

10. **Response:** Not applicable.

11. **Response:** Not applicable.

12(a-q). **Response:** None; please see the response to Request No. 7 above, along with copies of the attached manifests and related documents.

As you can see from the contents of these responses and the attached documents, it does not appear that our client has any nexus to the IWI Site. After your review of these materials, please contact the undersigned to discuss this matter further. If appropriate, Mr. Waddles and I would be willing to visit you at EPA's offices in Chicago to review any documents or other evidence which EPA believes establishes some type of connection between MTD and the IWI Site.

Thank you.

Very truly yours,

WEGMAN, HESSLER & VANDERBURG

A handwritten signature in black ink, reading "David W. Herrington". The signature is written in a cursive style with a large, circular loop at the beginning of the first name.

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national governmental regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.
